The Facebook Fellowship Program is designed to support promising doctoral students who are engaged in innovative research related to computer science and engineering at an accredited university.

Applications are open to all full-time PhD students currently involved in ongoing research who are enrolled in an accredited university in any country. We encourage all people of diverse backgrounds and experiences to apply. Applications are evaluated based on the strength of the student’s research statement, publication record, and recommendation letters.

The Fellowship Award Includes:

- Tuition and fees paid for the academic year (up to two years/four semesters)
- A $42,000 annual stipend to cover living and conference travel costs
- A paid visit to Facebook headquarters for the annual Fellowship Summit
- Various opportunities to engage with Facebook researchers

Available Fellowships

- Applied Statistics
- Privacy and Data Use
